DIMENSION ASSESSMENT AND PROFILE

Dimension assessed

Operational autonomy

Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.

Process complexity

Multi-variable, high-complexity processes. Designs solutions beyond existing standards, leads improvement initiatives and trains others in new methodologies. Manages ambiguity with autonomy.

Decision-making

Decisions with cross-functional or strategic impact. Applies Toyota Business Practice (TBP) to structure analysis, anticipates consequences in other areas and generates recommendations influencing team or management decisions.

Technical knowledge

Deep technical expertise, recognized within the team. Shares knowledge, develops capabilities in others and leads adoption of new practices or methodologies.

Stakeholder management

Regular interaction with Finance counterparts and stakeholders in Argentina and/or Brazil. Coordinates information, aligns criteria and maintains effective working relationships beyond the immediate team.

Reporting level

Reports directly to the Coordinator or Area Manager. Output is visible to the leadership team and reviewed by the responsible manager.

Error impact

Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.

Tools and technology

Advanced proficiency with DX/AI orientation. Leads or drives the adoption of digital tools or artificial intelligence to make processes more efficient, aligned with the TLAC ONE TOYOTA initiative.

Senior Analyst

High-impact profile. Leads complex processes, manages multiple stakeholders, incorporates advanced tools and contributes to team development.
