DIMENSION ASSESSMENT AND PROFILE

Dimension assessed

Operational autonomy

Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.

Process complexity

Processes with moderate variability requiring interpretation and judgment. Questions how things are done, identifies improvement opportunities (Kaizen) and proposes adjustments to the team. Handles multiple tasks with interdependencies.

Decision-making

Decisions with cross-functional or strategic impact. Applies Toyota Business Practice (TBP) to structure analysis, anticipates consequences in other areas and generates recommendations influencing team or management decisions.

Technical knowledge

Solid command of area tools and processes. Stays current in their field, proactively seeks new knowledge and applies it with autonomy.

Stakeholder management

Regular interaction with Finance counterparts and stakeholders in Argentina and/or Brazil. Coordinates information, aligns criteria and maintains effective working relationships beyond the immediate team.

Reporting level

Reports to Management or General Management. Output is presented to senior leadership (GM, Director, CEO) with impact on strategic decisions.

Error impact

Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.

Tools and technology

Advanced command of area tools. Uses complex functionalities, automates repetitive tasks and proposes improvements in existing system usage.

Senior Analyst

High-impact profile. Leads complex processes, manages multiple stakeholders, incorporates advanced tools and contributes to team development.
