DIMENSION ASSESSMENT AND PROFILE

Dimension assessed

Operational autonomy

Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.

Process complexity

Processes with moderate variability requiring interpretation and judgment. Questions how things are done, identifies improvement opportunities (Kaizen) and proposes adjustments to the team. Handles multiple tasks with interdependencies.

Decision-making

Decisions with cross-functional or strategic impact. Applies Toyota Business Practice (TBP) to structure analysis, anticipates consequences in other areas and generates recommendations influencing team or management decisions.

Technical knowledge

Solid command of area tools and processes. Stays current in their field, proactively seeks new knowledge and applies it with autonomy.

Stakeholder management

Management of high-relevance stakeholders: Managers, Directors, regional counterparts. Builds relationships autonomously, negotiates positions and represents the area in decision-making forums.

Reporting level

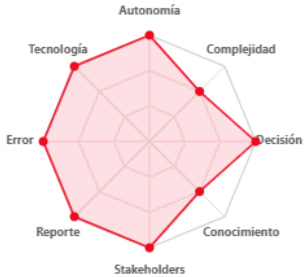

Reports to Management or General Management. Output is presented to senior leadership (GM, Director, CEO) with impact on strategic decisions.

Error impact

Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.

Tools and technology

Advanced proficiency with DX/AI orientation. Leads or drives the adoption of digital tools or artificial intelligence to make processes more efficient, aligned with the TLAC ONE TOYOTA initiative.

Senior Analyst

High-impact profile. Leads complex processes, manages multiple stakeholders, incorporates advanced tools and contributes to team development.
