DIMENSION ASSESSMENT AND PROFILE

Dimension assessed
Operational autonomy Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.
Process complexity Processes with moderate variability requiring interpretation and judgment. Questions how things are done, identifies improvement opportunities (Kaizen) and proposes adjustments to the team. Handles multiple tasks with interdependencies.
Decision-making Decisions based on fact and data analysis (PDCA). Evaluates alternatives, identifies root causes using structured methodology and resolves problems with own judgment within their area of responsibility.
Technical knowledge Solid command of area tools and processes. Stays current in their field, proactively seeks new knowledge and applies it with autonomy.
Stakeholder management Regular interaction with Finance counterparts and stakeholders in Argentina and/or Brazil. Coordinates information, aligns criteria and maintains effective working relationships beyond the immediate team.
Reporting level Reports directly to the Coordinator or Area Manager. Output is visible to the leadership team and reviewed by the responsible manager.
Error impact Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.
Tools and technology Advanced command of area tools. Uses complex functionalities, automates repetitive tasks and proposes improvements in existing system usage.

Analyst

Profile with consolidated operational autonomy. Applies own judgment, collaborates with other areas and contributes process improvements. Operates with low supervision.
