DIMENSION ASSESSMENT AND PROFILE

Dimension assessed

Operational autonomy

Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.

Process complexity

Processes with moderate variability requiring interpretation and judgment. Questions how things are done, identifies improvement opportunities (Kaizen) and proposes adjustments to the team. Handles multiple tasks with interdependencies.

Decision-making

Decisions based on fact and data analysis (PDCA). Evaluates alternatives, identifies root causes using structured methodology and resolves problems with own judgment within their area of responsibility.

Technical knowledge

Deep technical expertise, recognized within the team. Shares knowledge, develops capabilities in others and leads adoption of new practices or methodologies.

Stakeholder management

Regular interaction with Finance counterparts and stakeholders in Argentina and/or Brazil. Coordinates information, aligns criteria and maintains effective working relationships beyond the immediate team.

Reporting level

Reports directly to the Coordinator or Area Manager. Output is visible to the leadership team and reviewed by the responsible manager.

Error impact

Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.

Tools and technology

Advanced command of area tools. Uses complex functionalities, automates repetitive tasks and proposes improvements in existing system usage.

Senior Analyst

High-impact profile. Leads complex processes, manages multiple stakeholders, incorporates advanced tools and contributes to team development.
