DIMENSION ASSESSMENT AND PROFILE

Dimension assessed	
Operational autonomy Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.	
Process complexity Multi-variable, high-complexity processes. Designs solutions beyond existing standards, leads improvement initiatives and trains others in new methodologies. Manages ambiguity with autonomy.	
Decision-making Decisions based on fact and data analysis (PDCA). Evaluates alternatives, identifies root causes using structured methodology and resolves problems with own judgment within their area of responsibility.	
Technical knowledge Deep technical expertise, recognized within the team. Shares knowledge, develops capabilities in others and leads adoption of new practices or methodologies.	
Stakeholder management Regular interaction with Finance counterparts and stakeholders in Argentina and/or Brazil. Coordinates information, aligns criteria and maintains effective working relationships beyond the immediate team.	
Reporting level Reports to Management or General Management. Output is presented to senior leadership (GM, Director, CEO) with impact on strategic decisions.	
Error impact Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.	Senior Analyst High-impact profile. Leads complex processes, manages multiple stakeholders, incorporates advanced tools and contributes to team development.
Tools and technology Advanced proficiency with DX/AI orientation. Leads or drives the adoption of digital tools or artificial intelligence to make processes more efficient, aligned with the TLAC ONE TOYOTA initiative.
