

Process Evaluator — TLAC F&A · 2026

For use by HR Business Partner and responsible Manager

POSITION

Role / Function **Profit Planning Analyst**

Department **Profit Planning**

Organization **TASA**

General Management **Planning**

TASKS AND PROCESSES

- **Financial Analysis:** Deeply analysis of financial statements to identify key factors that affect profit margins.
- **Forecasting:** Collaborate with cross-functional teams to develop accurate financial forecasts, considering market trends, economic indicators, and internal variables.
- **Budgeting:** Work closely with department heads to establish and manage budgets, ensuring alignment with overall profit goals and organizational objectives.
- **Variance Analysis:** Monitor and analyze budget versus actual performance, identifying and explaining any variances to key stakeholders.
- **Scenario Planning:** Evaluate potential scenarios and their impact on profitability, providing insights to support strategic decision-making.
- **Risk Management:** Evaluate financial risks associated with profit planning activities, proposing mitigation strategies to keep the organization's financial health.
- **Reporting:** Generate regular reports and dashboards to communicate financial performance and key indicators to management, enabling informed decision-making.

DIMENSION ASSESSMENT AND PROFILE

Dimension assessed

Operational autonomy

Works autonomously with low supervision. Designs and executes their own processes, anticipates deviations and proposes countermeasures without routine consultation.

Process complexity

Multi-variable, high-complexity processes. Designs solutions beyond existing standards, leads improvement initiatives and trains others in new methodologies. Manages ambiguity with autonomy.

Decision-making

Decisions with cross-functional or strategic impact. Applies Toyota Business Practice (TBP) to structure analysis, anticipates consequences in other areas and generates recommendations influencing team or management decisions.

Technical knowledge

Solid command of area tools and processes. Stays current in their field, proactively seeks new knowledge and applies it with autonomy.

Stakeholder management

Management of high-relevance stakeholders: Managers, Directors, regional counterparts. Builds relationships autonomously, negotiates positions and represents the area in decision-making forums.

Reporting level

Reports to Management or General Management. Output is presented to senior leadership (GM, Director, CEO) with impact on strategic decisions.

Error impact

Errors with financial, reputational or strategic impact. May affect reports to headquarters, business commitments or senior management decision-making.

Tools and technology

Advanced command of area tools. Uses complex functionalities, automates repetitive tasks and proposes improvements in existing system usage.

Senior Analyst

High-impact profile. Leads complex processes, manages multiple stakeholders, incorporates advanced tools and contributes to team development.
